# MICADO - Migrant Integration Cockpits and Dashboards

*How to improve the management of migrant integration into host communities?*

*How to facilitate the opportunities for migrants to participate in society?*

*How to build up capacity for responding to future migration challenges on institutional and individual levels?*

MICADO aims to facilitate the exchange between migrants, public authorities and engaged civic society and ease migrants' access to regular social systems (housing, education, health care, and labour) and counselling services through attractive digital services. Thus, it will lower the socio-economic effort and expenditure in migrant integration, both for host economies and individuals.

MICADO is an interdisciplinary international project that involves research institutions, public authority agencies and SMEs from Germany, Belgium, Italy, Spain and Austria, whose purpose is to **co-develop a MICADO-"one-fits-all"-solution** (generic solution) that can be adapted by the local actors to their respective local challenges and manage migration issues with a **local solution**:

The generic solution will first be piloted in the MICADO-partner cities Hamburg, Bologna, Madrid and Antwerp, and will then eventually be modified by the local communities. The outcome of the project will **empower public authorities and local communities** that attend migrants and refugees from their moment of arrival in the EU with more efficient and more effective digital services. It will also **support migrants and refugees** by enabling essential communication, orientation, and navigation within their new life environments.

At the end, the MICADO solution shall be offered on an open source platform and be transferable to communities in other European cities.

micado.

## PROJECT FACTS

**DURATION**  
01/2019 to 06/2022

**PROGRAMME**  
Horizon 2020  
SC6-MIGRATION-2018

**REFERENCE**  
822717

**COORDINATOR**  
HafenCity Universität Hamburg
